

CompTIA+ Certifications & Degree Alignment

Computing Technology Industry Association (CompTIA) is a third-party company that offers education, training, and certifications that promote industry growth. Please be sure to check the eligibility requirements needed to sit for your desired CompTIA+ exam. You can review CompTIA+ certifications and their course equivalency by visiting the [Transfer Credit Finder](#).

Under each degree title you will find which APUS courses can receive transfer credit from valid CompTIA+ certifications. The first line is the APUS course number(s) and the second line is the corresponding CompTIA+ certification needed to earn that specific course credit.
